

Class 29 Terraform State Refresh

Possible Scenario

scenario1=Configuration file (.tf file --jiske ander aap code likhte ho)me kuchh change hua yeah new add hua?

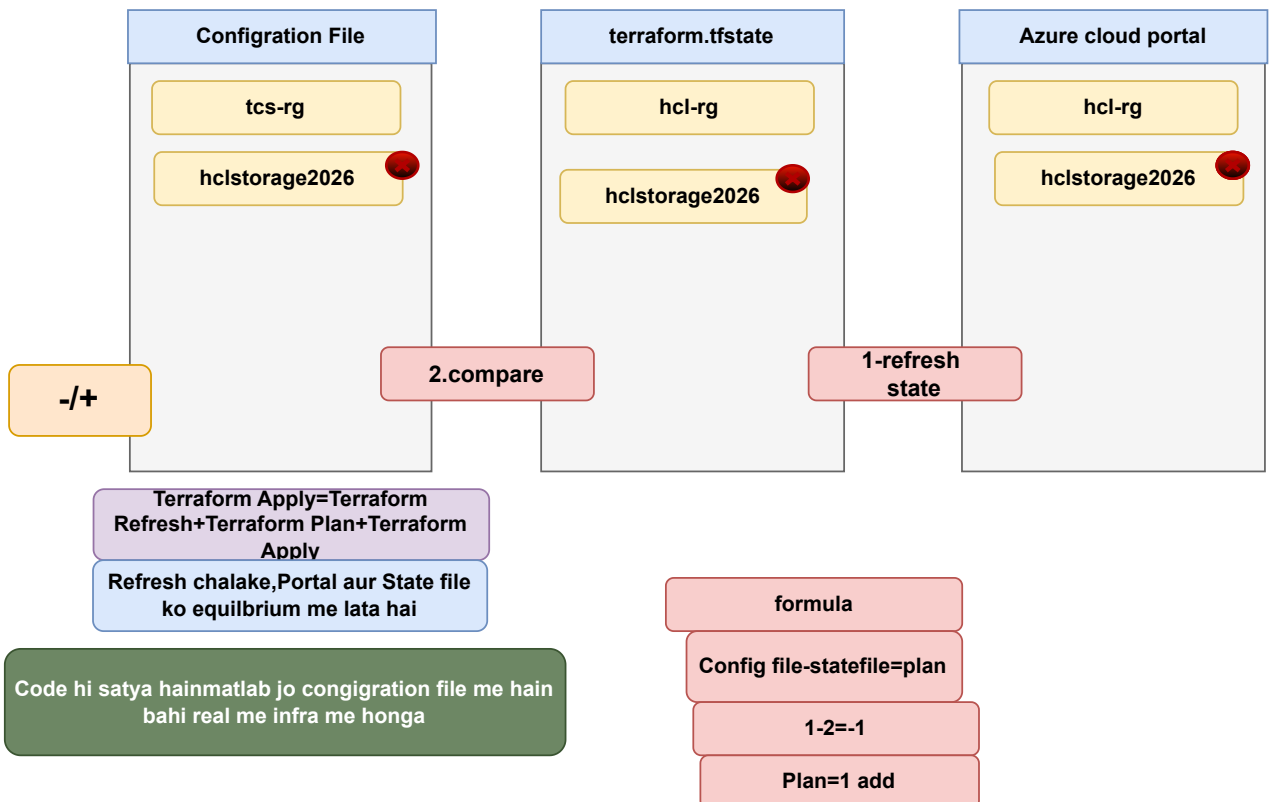

scenario 2 =configuration file me se code ko uda dia (delete kar dia)? (Kuchh bhi destroy karna hai toh use config file uda denge)

scenario 3 =azure portal me se kuchh delete kar dia but vo terraform se banaya tha.
Real time production aapko portal ka access hi nahi milage

scenario 4:azure portal kuchh add kar dia but terraform config file me uska code nhi hai.

Scenario 1

Equilibrium State(Zero Drift)=0
